---

## PROJECTS

---

### Online Book Store (Library)

*Frontend Developing Project*

Developed dynamic website using HTML/CSS, showcasing Flexbox for professional layout/responsiveness and enhancing user interaction with engaging transitions. Designed a user-friendly navigation menu using Javascript, optimized for both desktop and mobile devices, utilizing key Frontend properties.

### Advanced Personal E-Portfolio

*Frontend Developing Project*

Developed a visually appealing website to showcase advanced Frontend Development skills, using HTML, CSS, and Javascript. Designed for full responsiveness and unique user experience with an interactive background. Implemented a "light/dark mode" option and a "Contact Me" feature completely using Javascript. Demonstrated professional mastery of Frontend technologies.

### Treac Template Remake

*Frontend Developing Project*

Re-created an online Frontend template using HTML and CSS, demonstrating technical skills by utilizing "Inspect Element." Developed a comprehensive understanding of Flexbox, overcoming challenges to recreate the original design with intricate shapes. Produced a visually stunning website from scratch, showcasing strong technical skills.

### Personal E-Portfolio

*Frontend Developing Project*

Created a professional website with HTML/CSS, demonstrating advanced CSS proficiency with Flexbox and dynamic transitions. Fully responsive, ensuring seamless display on all devices, with efficient navigation links and buttons. Crafted to provide an exceptional online presence.

---

## PROFESSIONAL EXPERIENCE

---
